Achucarro Basque Center for Neuroscience, a unique research centre established in Bilbao organises a new concept of advanced training course for Glia scientists.

The focus of this School is to foster close interactions between the speakers (mentors) and the students and inspire elaboration of new collaborations/projects during a three-day course consisting of: (a) Practical demonstrations of state-of-the-art techniques and (b) Brainstorming sessions (in groups) for designing an innovative research project.

Our speakers/mentor for this edition are:

**Astroglia:**
Juan Pedro Bolaños (Spain)
Alexei Verkhratsky (UK)
Elena Alberdi (Bilbao)

Microglia:
Adam Dénes (Hungary)
Diego Gómez-Nicola (UK)
Maria Domercq (Bilbao)

**Oligodendroglia:**
Anne Baron Evercooren (France)
Maria Cecilia Angulo (France)
Susana Mato (Bilbao)

Radial glia and Stem cells:
Elena Mira (Spain)
Noelia Urban (Austria)
José Ramón Pineda (Bilbao)

The main goal of this School is to combine cutting edge science and leisure activities in a relaxed environment to foster close interaction, mentoring, and networking with leader glial researchers.

**Bilbao (Spain)**
June 27 to 29, 2018
