

POLICY OF USE

Seahorse XFe96-Extracellular Flux Analyzer

Version 7
(January 2024)

Foreword

This policy defines the organisation for the correct use and maintenance of this equipment. This document is open to improvements and suggestion, fruit of the use and experience in the common and collaborative use of this equipment. The Facility Manager can take suggestions to improve this policy of use and take care of any issue related to this equipment.

Working hours

The regular working time of the equipment is from Monday to Friday, from 8.00 to 20.00. There are 2 timeslots per day (8-14 and 14-20)

Be aware that this equipment must be prepared the day before running the experiment.

Request of access for external people

Complete the next form: <https://labur.eus/achucarro-service-request>

To keep a good atmosphere in the use of the equipment, and in the whole centre, we kindly ask all the users to observe strictly the schedules and times of use, planning adequately the experiments, being tidy and clean with the equipment, furniture and room.

Acknowledgement

Users **MUST** mention the use of this equipment in their publications and research outcomes as:

Achucarro Basque Center for Neuroscience-Cell Analytics Facility (UPV/EHU Scientific Park, Leioa-Spain)

This equipment has received the financial support of the European Commission-European Regional Development Fund.

UNIÓN EUROPEA
“Una manera de hacer Europa”
